Site Reliability Engineer (SRE) | Kubernetes | AWS | Observability | Platform Reliability

Summary

Site Reliability Engineer with 5+ years of experience supporting and improving the reliability, availability, and performance of cloud-native platforms across AWS, Azure, and Kubernetes environments. Experienced in observability, monitoring, incident response, infrastructure automation, GitOps, CI/CD, and platform operations. Strong background in Prometheus, Grafana, Kubernetes, Terraform, and cloud infrastructure, with a proven ability to improve deployment reliability, reduce operational overhead, and support highly available production systems.

Skills

Kubernetes, AWS, Azure, Terraform, Prometheus, Grafana, CloudWatch, Site Reliability Engineering (SRE), Observability, Monitoring, Incident Response, Linux, Docker, GitOps, Argo CD, Helm, CI/CD, GitHub Actions, Azure DevOps, Infrastructure as Code (IaC), Reliability Engineering, Production Support, Platform Engineering, ECS, EC2, Auto Scaling, Application Load Balancers, Cloud Infrastructure, Performance Optimization, Disaster Recovery, Root Cause Analysis.

Experience

Site Reliability & DevOps Engineer

Qore Inc | *Oct 2019 – Apr 2024*

- Implemented GitOps-based Kubernetes deployments using Argo CD and Helm Charts on Azure Kubernetes Service (AKS), improving deployment consistency and platform reliability.
- Built and maintained Prometheus and Grafana dashboards to provide real-time visibility into service health

Education

Cloud Computing Technologies — George Brown College, 2024–2025

Bachelor of Science in Computer Science — Madonna University, 2015–2019
